Tips for Waterfall Hiking

Wear the right footwear for hiking to waterfalls in Colorado. Here's how to choose the right hiking footwear. Consider bringing Chacos too.

Make sure the trail is open, especially in winter.

Check to see if there is a fee to enter; bring cash just in case.

Find out if spikes / crampons and trekking poles would be helpful in winter.

Wear gaiters to keep out snow, water, mud, dirt, little sticks, scree, and pine needles. We love Outdoor Research Gaiters, available in different heights.

Pack the right daypack for your hike, complete with water, snacks, first aid kit, and layers. Here's what we pack in our daypack
